DENIM

SUSTAINABILITY MANIFESTO

SUSTAINABILITY MANIFESTO

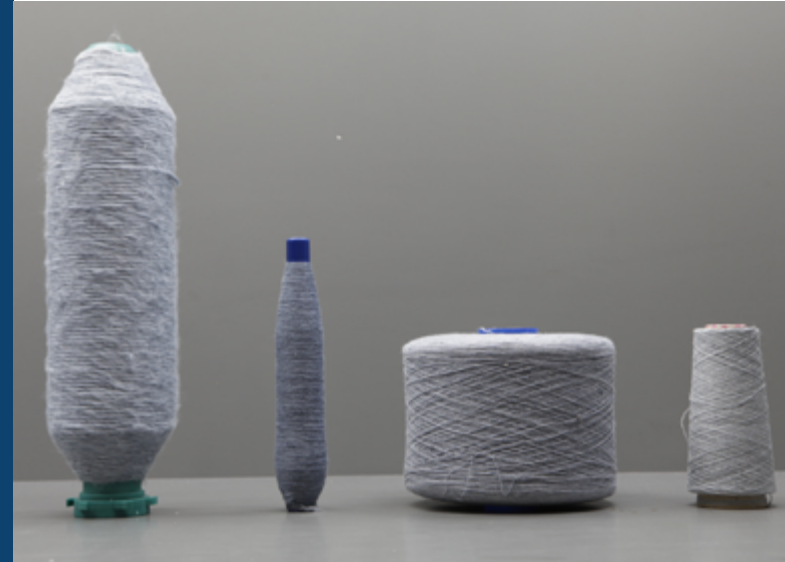

Lasting Legacy

We are located in a nature reserve park, the Parco del Ticino, that is as rich in biodiversity as it is in textile heritage. We are committed to preserving and respecting both: the habitat that makes our home unique and the entire community of people that make what we do possible.

Intelligent Ingredients

Like any good recipe, quality denim starts with quality ingredients. We are committed to knowing our suppliers and ensuring traceability, to sourcing close to home, and to using only high-quality, innovative raw materials that are better for the people and the planet, while always promoting the responsible consumption of our natural resources.

Trailblazing Technology

Evolution is part of our DNA. We aim to always push boundaries by continuing to develop and discover state-of-the-art solutions to minimizing the environmental impact of our products and production while driving these changes industry-wide.

Trusted Transparency

We want to give you the answers to the questions you did not know to ask. We are dedicated to supporting the next generation of designers and fashion professionals while educating brands and end-consumers about sustainable denim. We have opened our doors for a first-hand look at our production to debunk common myths, eliminate confusion, and to share the complete story of how denim is made—from start to finish.

Lasting Legacy

- Safeguard biodiversity locally and throughout our value chain
- Ensure the highest standards of health and safety for our workers, and provide a positive and enabling work environment
- Utilize a preventative risk management approach
- Contribute to the sustainable development and economic vitality of the local community

Intelligent Ingredients

- Promote the responsible consumption of natural resources and R&D of innovative materials
- Prioritize the research on and the use of regenerated and regenerating materials
- Select ingredients based on their social and environmental impact along the entire value chain
- Prioritize sourcing as locally as possible and establishing lasting relationships with suppliers near and far
- Provide complete transparency and traceability of our entire value chain

Trailblazing Technology

- Offer products of the highest quality and safety standards
- Invest in the R&D of production processes and technologies that minimize adverse impacts on the environment in terms of energy management and emissions, water management, and waste management.
- Pursue the best practice approaches by implementing energy and water efficiency strategies
- Investing in circular and regenerating production processes, technologies and products

Trusted Transparency

- Place customer care at the center of our work that responds to our clients' specific needs while providing the best-in-class, value-driven solutions
- Provide brands and end-consumers with transparent information about our products and productions processes
- Support the education and development of students, industry professionals, and end-consumers
- Assure open internal and external communications with all stakeholders

Candiani places the utmost attention on ensuring business is conducted in line with the highest standards of business ethics and integrity.

These commitments are measurable and time-bound and will be periodically reviewed to ensure they remain relevant and ambitious.
